DIPANKOR KONWAR

OBJECTIVE

Passionate software developer with expertise in Laravel, MySQL, and modern web technologies. Strong problem-solving abilities, analytical thinking, and a keen eye for optimizing performance. I aspire to be part of an organization where I can continuously learn and enhance my technical skills while contributing to its growth. Eager to adopt new technologies and leverage my expertise to drive innovation and efficiency.

TECHNICAL SKILLS

HTML, CSS, JavaScript, jQuery, AJAX, PHP, Laravel, MySQL, React JS, Node JS, and MongoDB, Git etc.

EXPERIENCE

BACKEND DEVELOPER, GRATIA TECHNOLOGY PVT LTD, GUWAHATI

01/2024-03/2025

Gratia Technology operates as an IT product development company, collaborating with numerous enterprises worldwide. They function as a technology partner, guiding projects from conception to fruition. With an in-house application development team adept in cutting-edge technologies, they deliver comprehensive technology solutions to their clients.

SOFTWARE DEVELOPER INTERN, NIC SHILLONG, MEGHALAYA

01/2023-06/2023

NIC offers an array of services to both State and Central Government organizations, leaving no avenue unexplored in providing diverse ICT services to offices within the region, thereby establishing a robust foundation for e-Governance initiatives. All ICT services for the State originate from here.
